

Implementation of Employee Sentiment Analysis, Topic Modelling and Opportunity Mapping

This project implements sentiment analysis and topic modeling on employee reviews to extract key insights for HR management and development planning. Inspired by the study by Furgon Sandiva Utomo Putra and Ira Puspitasari (University of Airlangga), it aims to identify common themes and sentiments to support strategic decision-making in organizations.

Project Description

This project applies sentiment analysis and topic modeling techniques on employee review data—specifically sourced from Glassdoor to extract actionable insights for HR management and development planning. Inspired by the methodology in the research by Furgon Sandiva Utomo Putra and Ira Puspitasari, the goal is to support HR decision-making by identifying common employee sentiments and topics related to job satisfaction, work culture, and management.

Algorithms and Models Used

Text Pre-processing (Tokenization, Lowercasing, Stopword Removal, Lemmatization)
Sentiment Analysis (Negative, Neutral and Positive)
Topic Modelling (Latent Dirichlet Allocation (LDA))
Opportunity Mapping (Topic frequency Importance v/s Sentiment score. Helps identify key points and potential areas for HR intervention)

Tools & Libraries Used

- Python (pandas, nltk, sklearn, matplotlib)
- Jupyter Notebook
- Dataset: <https://www.kaggle.com/datasets/davidgauthier/glassdoor-job-reviews>

```
In [1]: # Importing the pandas library for data manipulation and analysis
import pandas as pd

# Importing the regular expressions library for text pattern matching and cl
import re

# Importing the Natural Language Toolkit (nltk) library for natural language
import nltk
```

```
# Importing the list of English stopwords (commonly used words to be removed
from nltk.corpus import stopwords

# Importing the WordNetLemmatizer for reducing words to their base or root form
from nltk.stem import WordNetLemmatizer
```

```
In [2]: # Load the original dataset
df = pd.read_csv(r"C:\Users\Hp\Desktop\HR Sentiment Anlysis\glassdoor_review.csv")
df.head()
```

```
Out[2]:
```

	firm	date_review	job_title	current	location	overall_rating

```

```

0
Good working environment and relaxed culture. The pay is not that great.
1   Somewhat laid back in the beginning.\r\nLearn how to make pizza.\r\nTha
t's about it. No benefits.\r\nNothing is fresh as they claim it is.\r\nEvery
one is super fake.
2
gain experience in banking industry not enough pressure or responsibilities
3                                     Brand name, ex
posure, career progression, team, ethics Salary, work load, compensation, li
mitation, resource
4
Safe and pay is moderate Work life balance is not the best
5   * Good opportunities for networking and client experience\r\n* Ve
ry friendly work culture with great social events * Long hours\r\n* Lower pa
y than in industry
6                                     Huge network p
rovides one a lot of opportunities within the bank Bureaucracy similar to an
y other large firm
7
Flexibility is one of the best part about working at IBM The promotion speed
is slow
8
Learning opporturnities and great company High workload, demanding and busy
9
Good exposure to telecomm networks Still to catch up on new technologies in
the market.

pros \

6927

Iconic Brand Image of the company.

1800 great personal development processes, including international and local class based training. Bain also allows consulting staff to remain "generalised" until they become quite senior, which means that you are guaranteed exposure to many different industries, capabilities and functions over the course of your career. Bain's private equity practice is much larger than its nearest competitors, which means that you are offered opportunities to work between typical strategic cases and 'Due Diligence' work in the Private Equity group.

7700

Great Company, Great culture. Great opportunity to learn

8099

great newtorking work smart people challenging work

6904

none avoid cost

cons \

6927

Compensation and cost cutting on the employee benefits.

1800

hours can be long, travel can be significant. Also, the regional staffing model means that to some extent you are confined to the industry mix of the office in which you are located

7700

Everything is focused at the center. Local offices don't get the right focus. Too much alignment needed to achieve minor things. Compensation needs to

improve.

6710

Management is horrible. No hours

9768

Salary is not based on performance

4263

Multiple ownership over the last few years, needs some consistency

5896

No opportunities for pay rise, even with promotion

5119

frequent managment change (first line manager changes every year). Directi
on changes every quarter. Frequent layoffs. Every 6 months you wonder if
you will still have a Job. many times good engineers are let go, and the on
es that stay are less technical, but more 'connected'.

9089

life work balance is not so good

9641

No cons as such to highlight

9479

The workload is tremendous- however- given the industry its on par with the
other firms.

2481

All male leadership, not investment in D&I, no action on HR issues. \r\n\r\n
No career growth for womxn. Terrible treatment of black employees. Old techn
ology. Slow moving teams. Micromanagement from leadership.

3413

I was directly put into testing domain against my wishes.

8806

Salary offered is low as compared with other product based companies.\r\nPro
motion cycle is slow.\r\nCanteen in Pune facility is useless.\r\nNo WFH setu
p help no internet allowance nothing given in Covid crisis.

860

Technology is limited nuthing new to learn

8630

Very hard to rise into senior management

9515

bureaucratic, political, outdated thinking

5609

To many system and processes.

8099

Work life balance isnt too great sometimes

6904 Bullying from the top down, worst of all from the CEO. HR cover ot all
up and pretend nothing happens, even when shown evidence. Budgets are so lo
w, residents get 50p per person a mo th for activities. So bad, cleaners we
re made to wear carees uniforms when cqc visited to pretend they had enough
staff. Will never accept they have done wrong. Health and safety of staff an
d residents very low.
